

Hallockville Museum Farm Invites You to a Very Special Event...

Animals, Art & Meaning: An Evening with George Bumann

George Bumann is an internationally-recognized sculptor of wildlife. Follow George on an artistic journey as he tells the story of one of Yellowstone's most famous wolves through a live sculpture demonstration. This participatory program provides insight into an artist's process, explores the ways in which humans find meaning in natural experiences, and inspires the audience to find ways to tell their own stories about encounters in the wild.

Where: Martha Clara Vineyards, 6025 Sound Ave., Riverhead, NY 11901

When: Thursday, April 19 | 7pm to 9pm

This evening is made possible with generous support from Avalon Park and Preserve and Martha Clara Vineyards. Wine will be available for purchase during the evening.
